Press Release Body: A revolutionary new technology system called **GoProfessionals.com** has been released by **Web By Design, Incorporated**. **Web By Design, Inc.** is a California based company with a large volume of clients based all over the country.

**GoProfessionals.com** is now being launched for a variety of sales and services to professionals and businesses ranging from the West Coast all the way to the East Coast.

**GoProfessionals.com** will supply the client with a free copy of **AppointmentDiary Software** so that their clients can book appointments for their business services online. The online appointment scheduling allows clients to make appointments immediately, ending their search for services and saving them time.

Once the appointment is booked the client is then notified by either email or SMS text messaging to their cell phone.

The **GoProfessionals.com** is not only limited to the online scheduling system for appointments but also clients will benefit from advertising their services on a fully optimized site. This means that their businesses visibility will be improved on search engines by increasing accessibility to potential clients.

**GoProfessionals.com** is also exclusive! By limiting their clients competition to have a maximum of 6 listings only on the directory. This also allows their potential clients to have an elite directory to select their services from.
