Press Release Summary: Commercial-grade grow lights are available to the public at wholesale prices

Press Release Body: (Milpitas, Calif.) November 11, 2008 - <http://www.AccessDiscounts.com> - a leading supplier of grow lights, [residential lighting](#) and commercial lighting, offers savings on its entire selection of grow lights and grow light systems for commercial or residential use. Grow lights effectively simulate the effects of sunlight on plants (photosynthesis) in indoor environments, and come in an array of spectra, depending on the stage of growth. Grow lights are used by horticulturalists to promote plant growth.

"As consumers seek out safer sources of produce and specialty plants grown hydroponically, at relatively reasonable prices, we are seeing a higher demand for energy efficient grow light solutions," stated Christina Roush, spokesperson for Access Discounts. "Our selection of [grow lights](#) and grow light systems offer most growers just the right solutions for their plants' needs. Whether choosing LED or fluorescent lights, with or without reflectors, shoppers will find the best prices at Access Discounts."

Recreational and commercial growers can take advantage of the significant savings available through Access Discounts. A variety of grow light types, each with its own growth characteristics, are available through Access Discounts' online store. High pressure sodium (HPS) and metal halide (MH) lamps provide the high intensity discharge (HID) lamps needed for the vegetative stage of plant growth. Lamps can be purchased by spectrum color, or as full-spectrum solutions and growing systems.
