Press Release Summary: A credit crunch beating month for one lucky player at 32Red online casino, with two large jackpot wins in just one month

Press Release Body: **32Red** has announced that one of its players claimed a second large jackpot win from the same slot machine in under a month. The lucky player has taken home a total of £37,864.09 in just 17 days and becomes one of the online casino's luckiest customers.

With a history of big winners, **32Red** can demonstrate a series of large payouts that include a £1,094,112.81 win on Major Millions, which was one of the biggest payouts ever recorded at an [online casino](#), and £1,000,641 on King Cashalot. Both of these wins came from one of 32Red's 150+ slot machines and represent just two of twelve jackpot games available at 32Red, including Mega Moolah - the

jackpot to which currently stands at over £4,500,000.

Remarkably, these latest jackpots all came from the same slot machine, [Cash Splash](#). The casino reports the probability of this happening as very low, with **Ed Ware, 32Red CEO**, remarking *"Although large jackpot wins are quite common at 32Red, the chances of the same player winning the jackpot from the same game twice in a month are both staggering and wonderful."*

The player from Dorset logged in as normal on the 9th October and loaded the Cash Splash progressive [online slot](#) game, triggering the jackpot of £22,949.09 shortly after. He then logged in again on the 26th October and won a further £14,915, making a total payout of £37,864.09 for him in October. Ware said, *"This series of big wins couldn't come at a better time too, with another winner at 32Red well and truly beating the credit crunch in October and lining up a very special Christmas"*.

The Cash Splash [progressive slot](#) is available to play in two forms - as a 3 reel, single payline slot and a 5 reel, 15 payline machine. The jackpot is triggered by the game's logo symbol falling across the reels on the selected payline. When this happens the displayed jackpot total within the game is the figure won by the player. This amount varies and is connected to how much the game is played, with a fraction added to the jackpot every time the reels are spun. After the player's second win, the jackpot was reset and now stands at over £11,500, prompting Ware to ask, "Can this same player make it 3 wins in short succession? Either way it has to be his luckiest autumn and we wish him the best of luck in the future".
