

XMLBlueprint XML Editor 6.2 is released

Released on: November 11, 2008, 8:41 am

Press Release Author: Gerben Abbink

Industry: [Software](#)

Press Release Summary: Monkfish Software has released version 6.2 of XMLBlueprint XML Editor for the Windows platform, priced at US \$79.00 per license. Version 6.2 improves the usability of XMLBlueprint in response to user feedback. For a complete list of new features please visit: www.xmlblueprint.com/what-is-new.htm.

Press Release Body: **About XMLBlueprint XML Editor**

XMLBlueprint XML Editor is a value-priced and powerful XML editor for the Windows platform. The occasional user will enjoy its speed and ease-of-use. Power users will appreciate its high-quality XML support, such as context-sensitive XML completion and validation of schemas and XML documents against any schema. All major schema types are supported (DTD, Relax NG Schema, XML Schema).

Users can easily create, edit and run an XSLT Stylesheet and preview the transformation result.

Users can configure **XMLBlueprint XML Editor** to work with any 3rd party XML validator or XSLT processor. Users can add and run additional tools to further enhance XMLBlueprints functionality.

Using the XPath Evaluator, users can visually analyze, test, and debug XPath expressions.

A real-time outline displaying the elements in the XML document provides quick access to the various parts of the document.

Users can collaboratively edit and manage files on remote Web servers via FTP, HTTP, HTTPS (secure HTTP) and WebDAV. The built-in directory tree helps the user to quickly locate and open files. MacOS, UNIX and Windows file formats are automatically recognized.

XMLBlueprint XML Editor fully supports the Unicode UTF-8 and UTF-16 standards on all Windows versions, including Windows 98. This allows the user to edit files for the Asian/Pacific and Eastern European regions.

Availability **and** **Pricing**
XMLBlueprint XML Editor runs under Windows '98, Windows ME, Windows NT, Windows 2000, Windows XP and Windows Vista, costs US \$79.00, and may be purchased securely online at: www.xmlblueprint.com/buy.htm.

The price includes free e-mail technical support and free updates until the next major release. A 10 days free trial version may be downloaded from: www.xmlblueprint.com/download.htm.
