[Malibu, CA] — Sunset Malibu, an elite treatment clinic on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset has redoubled its commitment to holistic healing.

Addiction is both a physical and psychological disease. Addiction treatment, in turn, must promote both physical and psychological wellness. The most effective treatment programs are invariably those which help patients get better in body as well as in mind, in spirit as well as in substance. In the end, there's simply no better way to ensure lasting sobriety.

The importance of holistic therapy is reflected in the success of Sunset Malibu's treatment approach.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale individuals from every corner of the globe, whether their addiction is cocaine or [Prescription Drugs](#). Now Sunset is renewing its commitment to its core values, with the goal of delivering comprehensive care to all individuals who seek it. At Sunset Malibu, the client always comes first.

"No one ever gets halfway sober," said Sunset Malibu owner Richard Taite. "Recovery either happens or it doesn't. Treatment either succeeds or fails. Our exclusive treatment programs are specially designed to help clients get all the way to where they're trying to go. That, more than anything else, accounts for our outstanding record of success."

Unfortunately, not all treatment facilities can say as much about themselves.

There are plenty of rehab clinics in Los Angeles. Some of them really do provide quality care to their clients. But many more don't. Many of the highest-priced institutions in California routinely target selected symptoms of addiction while ignoring others. Over the long run, such strategies are doomed to fail.

Taite believes that those sorts of shortcomings are unacceptable.

"Successful addiction treatment changes lives," Taite said. "But failed addiction treatment can destroy them. At Sunset Malibu, we aim to provide clients with all the support they need to achieve positive results. The process begins with our special dual-diagnosis techniques—and it typically ends with meaningful and lasting sobriety."

Every case of addiction is a personal tragedy. Every successful treatment experience, on the other hand, is a personal triumph. Sunset Malibu's clients ultimately discover the world as they used to know it, before substance abuse stripped them of their hope and joy and dignity. Those who've been lucky enough to learn the truth firsthand know that no outcome could ever be more important than that.
