[Malibu, CA] — Sunset Malibu, an exclusive treatment center on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in the fight against anorexia and bulimia.

An eating disorder is a disease, whether its anorexia or [Binge Eating](#). Like any disease, it can only be eradicated by professional medical treatment. Sufferers who try to get better without the help of eating disorder treatment specialists are invariably doomed to fail. In the end, healing is not and cannot be a solitary undertaking.

The importance of professional expertise, in turn, lies at the very heart of Sunset Malibu's eating disorder treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center caters to

upscale residents from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing eating disorder treatment to all individuals who seek it. At Sunset Malibu, the client's personal needs always come first.

"Eating disorder treatment is an enormously delicate process," said Sunset Malibu owner Richard Taite. "To be successful, treatment must be administered by people who know exactly what they're doing. Our eating disorder specialists at Sunset Malibu are leading figures in their respective fields, which helps to explain why our clients enjoy such a robust rate of success."

It is that emphasis on clinical excellence that makes Sunset almost unique among its competitors.

Every eating disorder treatment facility pays lip service to the importance of caregiver expertise. But many institutions fail to put that principle into practice. Indeed, the most high-priced clinics in Los Angeles routinely devote insufficient resources to their eating disorder treatment personnel. Predictably, those clinics rarely help their clients achieve lasting recovery.

Under the circumstances, argues Taite, such shortcomings are inexcusable.

"Eating disorder treatment saves lives," Taite said. "At Sunset Malibu, we understand the depth of trust that our clients put in us, and we take our responsibility with the utmost seriousness. Simply put, we see it as our duty to be the best in the world at what we do."

It's no secret that eating disorders ruin lives. To succumb to anorexia or bulimia is to be stripped of one's dignity, and one's sense of self-control. Sunset Malibu has a long history of helping clients rebuild their lives from the ground up. As the center's successful graduates have learned firsthand, no gift could ever be more precious than that.

Contact Details: As with all co-occurring disorders, Sunset Malibu treats eating disorders as a co-occurring disorder with drug and or alcohol abuse.
