Nuviderm works and it works so well that it was just recognized for the second consecutive year as one of the best in the field of tattoo removal by the U.S. Local Business Association (USLBA). The USLBA "Best of Local Business" Award Program recognizes outstanding local businesses throughout the country. Each year, the USLBA identifies companies that they believe have achieved exceptional success in their business category. These are companies that enhance the positive image of small business through service to their customers and community.

Nuviderm.com is an easy to use in home tattoo removal product that offers an effective, affordable alternative to laser tattoo removal. During the current recession it has proved to be a highly satisfactory substitute for people who would otherwise have relied on the more expensive Laser method for tattoo removal. At a time when many people are losing their job it is important to make a good first impression when interviewing for that new position. [Nuviderm](#) is proud to be able to offer an inexpensive tattoo removal technique for job hunters on a tight budget.

Various sources of information were gathered and analyzed to choose the winners in each category. The USLBA Awards Program focuses on quality, not quantity. Winners are determined based on the information gathered both internally by the USLBA and data provided by third parties.
