Industry: [Healthcare](#)

Malibu, CA] — Sunset Malibu, an exclusive treatment center on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in the fight against clinical depression.

Depression is a disease, not a choice. Depression victims don't decide to be sick. By the same token, they can't simply decide to get better. On the contrary, meaningful depression recovery can only occur under the supervision of qualified depression treatment specialists. In the end, there's no other way for healing to happen, whether it's [Bipolar](#) disorder or severe depression.

That emphasis on professional help is at the heart of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale residents from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering physiological and psychological therapy to depression victims. At Sunset Malibu, the client's needs always come first.

"Depression is an awful disease," said Sunset Malibu owner Richard Taite. "But effective depression treatment really can solve the problem. Our mission at Sunset Malibu is to change the lives of the clients who trust us with their health."

That passion is precisely what sets Sunset apart from its competitors.

Many addiction treatment facilities offer depression treatment programs. However, very few of them devote adequate resources to their depression recovery efforts. Indeed, many people feel that most of the highest-priced rehab centers in California provide their depression treatment clients with woefully insufficient care. As a result, these clients rarely achieve lasting wellness.

Taite asserts that such an inferior standard of service is absolutely unacceptable.

"Our clients look to us as their last best hope for healing," Taite said. "We at Sunset Malibu, we take that responsibility with all due seriousness. We do everything in our power to ensure positive treatment outcomes for each and every one of our residents. Anything less would be a breach of our professional and personal obligations."

Depression victims don't need to be told about the perils of the disease. The good news is that Sunset Malibu has a long record of healing minds and changing lives. For Sunset's clients and their families, it's hard to imagine that any selling point could ever possibly be more persuasive than that one.
