[Malibu, CA] - Sunset Malibu, an exclusive treatment center on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in the fight against alcohol dependency.

Alcoholism is a disease. Like any disease, it can only be eradicated with the help of medical experts. The practical implication, of course, is that those alcohol abuse victims who try to recover outside of private [alcohol abuse treatment](#) centers are doomed to fail. In the end, there's simply no road to wellness that doesn't run through a professional clinic.

Those considerations, in turn, are at the heart of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing care to individuals who seek it. At Sunset Malibu, the client's individual needs always come first.

"Alcohol rehab is a fragile process," said Sunset Malibu Program Director Dr. Georgina Smith. "It can only be successful if it's managed the right way, with an excruciating attention to detail. From our advanced dual-diagnosis techniques to our personalized therapy programs, everything we do is designed to promote healing on a case-by-case basis."

But that passion for personalized service, unfortunately, is precisely what sets Sunset apart from its competitors.

Every rehab clinic pays lips service to the importance of personal recovery. Only a handful, though, actually put their own principles into practice. The truth is that many of the most well-known treatment centers in California fail to meet the individual needs of their individual clients. The result, of course, is that those institutions routinely fail to promote meaningful and sustainable recovery.

"Alcohol abuse ruins lives," Dr. Smith said. "Alcohol treatment can save them, but only if it's specially tailored to meet the individual needs of individual patients. At Sunset Malibu, we know how healing works, and we do everything in our power to help our clients find the best possible way forward."

No alcoholism victim needs to be told about the perils of the disease. What might not be so obvious is that expert alcoholism treatment really can make a world of difference. Sunset Malibu's successful graduates leave the center to rediscover life as they used to know it, and themselves as they used to be. Under the circumstances, it's hard to imagine that any ending could ever be happier than that one.

Sunset Malibu is a luxury drug and [alcohol abuse treatment center](#) located in Malibu, California.
