[Malibu, CA] - Cliffside Malibu, a prestigious recovery facility in the Malibu hills, has long been a leading light in the California treatment community. Now, the center is pleased to announce its renewed commitment to helping clients heal in a serene, secluded environment.

Drug abuse treatment is always an arduous process. Those patients who complete it successfully are invariably the ones who feel most secure and supported along the way. The best treatment centers, then, are those whose atmospheres are most suited to personal comfort and peace of mind. And, in the end, there's simply no substitute for the most exclusive enclave on the California coast.

Those principles, in turn, help to explain the robust success rates

enjoyed by Cliffside Malibu's residents.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The [drug abuse treatment center](#) has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering the planet's best care in the planet's best place. At Cliffside Malibu, administrators know that the right surroundings can make all the difference.

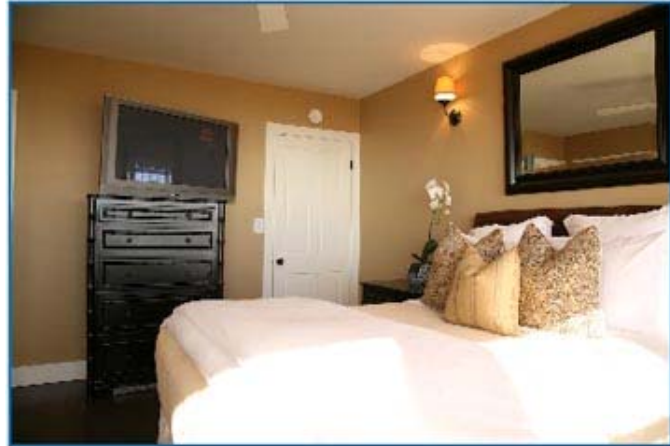

"Recovery doesn't happen in a vacuum," said Cliffside Malibu Program Director Dr. Georgina Smith. "On the contrary, environment matters in the healing process. That's why Cliffside Malibu takes such great pride in its secluded private estate. It's also why our clients so often achieve meaningful and lasting recovery."

Unfortunately, that place-specific success is precisely what distinguishes Cliffside from its competitors in other parts of the country.

Most rehab facilities really do try to meet the needs of their clients. But every clinic is inherently limited by its geographical location. For all their efforts, treatment centers in Los Angeles or New York simply can't recreate the unique ambiance of Malibu. As should go without saying, those natural shortcomings often impede the healing process.

For recovery patients and their families, say Cliffside administrators, that sort of stumbling block is unacceptable.

"Our clients trust us with their lives," said Patricia Freeberry, Cliffside's Clinical Director. "It's our job-our duty-to ensure that they get the best possible support along the road to wellness. Part of that support entails advanced medical care, which may include everything from dual-diagnosis to intensive depression treatment. But another part is and must be the quality of the environment in which that care is delivered."

Addiction ruins lives. Addiction treatment can save them-but only if it's administered by the right people and in the right place. Cliffside Malibu has a long history of providing expert care in an unparalleled setting. As the center's clients have learned firsthand, no combination could ever possibly be more valuable than that one.

Cliffside Malibu is a luxury alcohol and [drug abuse](#) treatment center located in Malibu, California.
