Industry: [Healthcare](#)

[Malibu, CA] - Sunset Malibu, a luxurious treatment facility on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in the personal fight against substance abuse.

Addiction never afflicts any two victims in quite the same way. On the contrary, every rehab patient is a unique individual, with unique individual needs and a unique individual case history. The practical implication, of course, is that the most successful treatment facilities are those which provide the most personalized care. In

the end, there's simply no firmer foundation for meaningful and lasting recovery.

That emphasis on personal wellness lies at the heart of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled [drug addiction](#) recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering specially-tailored care to individuals who seek it. At Sunset Malibu, the client always comes first.

"Rehab can't be an assembly-line process," said Sunset Malibu Program Director Dr. Georgina Smith. "We understand that each one of our clients is unique, which is why we use special dual-diagnosis techniques to assess every new resident on a case-by-case basis. More than anything else, that passion for personal service helps to explain our exceptional record of success."

Unfortunately, that passion for personal service is also precisely what sets Sunset apart from its competitors.

Most rehab clinics pay lip service to the importance of personal attention in the healing process. But very few of them actually live up to their own standards of intimacy. In fact, many of the most well-known facilities in Los Angeles offer the same generic rehabilitation programs to all of their clients. As should go without saying, these institutions

routinely fall short of the goals they set for themselves and their services.

"There are rarely second chances in the recovery process," Dr. Smith said. "At Sunset Malibu, we understand that our clients trust us with their lives, and we do everything we can to fulfill our obligations. From professional depression treatment to gourmet meals, we stop at nothing to ensure the best possible outcome for every individual who walks through our front doors."

No addiction victim needs to be told about the perils of the disease. The good news is that those perils don't have to be fatal-not if substance abusers seek professional help from clinical experts. Sunset Malibu has a long history of helping clients rediscover the world as they used to know it, and themselves as they used to be. Now more

than ever before, those clients really do have reason to believe in a better future.

Sunset Malibu is a luxury alcohol and [drug addiction treatment](#) center located in Malibu, California.
