[Malibu, CA] - Cliffside Malibu, a prestigious recovery facility on the Malibu coast, has long been a leading light in the California treatment community. Now, the center is pleased to announce its renewed commitment to its high-profile clients.

Addiction is a personal problem. Addiction recovery must be a private process. The most successful addiction treatment patients are those who feel most protected in their healing environments. For celebrity rehab center residents, that protection is especially important-and especially difficult to maintain.

Such a concern for client privacy, in turn, forms the bedrock of Cliffside Malibu's treatment philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The center has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering private, dignified care to those individuals who need it. At Cliffside Malibu, nothing less than the utmost confidentiality will ever be acceptable.

"Celebrity addiction victims face unique challenges on the road to recovery," said Cliffside Malibu Clinical Director Patricia Freeberry. "The public obsession

with celebrity [drug rehab](#) stories means that media members are constantly snooping for the latest gossip. We understand that such snooping can be grossly detrimental to the healing process, and we do everything in our power to shield our high-profile residents."

That commitment to privacy makes Cliffside unique among its competitors.

Many of the most "exclusive" treatment facilities in Los Angeles fail to adequately protect their clients from media scrutiny. Some institutions even leak information about those clients to the press for purposes of self-promotion and financial gain. As should go without saying, such facilities can't be counted on to promote meaningful recovery-and often do more harm than good for their patients.

Cliffside administrators insist that that sort of failure is unconscionable.

"Rehab is literally a matter of life and death," said Freeberry. "To turn it into some kind of gossip game is a breach of professional and personal obligations. At Cliffside Malibu, we understand exactly what's at stake, and we approach the healing process with a proper measure of seriousness and compassion. "

The road to addiction recovery is never an easy one to travel. For high-profile addiction victims, the path can be especially torturous. The good news, though, is that Cliffside Malibu has a long history of helping clients get all the way to where they need to go. Under the circumstances, it's hard to imagine that any sort of assistance could ever be more valuable.
