[Malibu, CA] - Sunset Malibu, an elite treatment clinic on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in the fight against anorexia and bulimia.

An eating disorder exists beyond the individual will of its victim. No one ever chooses to be sick, and no one can ever simply decide to get better. The practical implication, of course, is that eating disorder recovery can only occur under the auspices of a professional [eating disorders](#) treatment center. In the end, there's simply no better environment in which to pursue sustainable healing.

Those considerations, in turn, are at the heart of Sunset Malibu's eating disorder treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing care to individuals who seek it. At Sunset Malibu, the client always comes first.

"We exist only and entirely to meet the needs of our residents," said Sunset Malibu Program Director Dr. Georgina Smith. "To be successful, eating disorder treatment has to be specially tailored on a patient-by-patient basis. That's precisely what we do-and precisely why our clients enjoy such a robust rate of success."

Unfortunately, that emphasis on the individual is also precisely what sets Sunset apart from its competitors.

Many addiction treatment facilities offer eating disorder therapy to their clients. But only a handful of them devote sufficient resources to the eating disorder recovery process. Indeed, many of the most well-known clinics in California fall far short of the promises they make in their online advertising brochures. As should go without saying, those institutions routinely fail to effect any sort of meaningful or lasting healing.

Under the circumstances, argues Dr. Smith, such shortcomings are inexcusable.

"No one can ever simply 'live with' an eating disorder," Dr. Smith said. "If left untreated, anorexia and bulimia will destroy everything they touch: families, careers, lives. At Sunset Malibu, we understand the stakes, and we do everything in our power to ensure positive outcomes for our clients."

No eating disorder victim should need a lecture about the perils of his or her disease. The good news, though, is that those perils don't have to be fatal. Sunset Malibu's successful track record proves that professional eating disorder treatment really can change lives. For Sunset's clients and their families, no lesson could ever be more worth learning than that one.

As with all co-occurring disorders, Sunset Malibu treats eating disorders as a co-occurring disorder with drug and or alcohol abuse.

Sunset Malibu is a luxury [eating disorder treatment](#) center located in Malibu, California.
