[Malibu, CA] - Cliffside Malibu, an exclusive recovery center on the Malibu coast, has long been a leading light in the California treatment community. Now, the center is pleased to announce its renewed commitment to providing cutting-edge care in a luxurious and dignified environment.

Rehab is never easy. On the contrary, addiction is a ferocious disease, and addiction recovery can only be the product of determined effort. The practical implication, of course, is that rehab patients need the best possible support on the road to wellness. In the end, there's

simply no other way to ensure the long-term success of the healing process.

Those principles, in turn, lie at the very heart of Cliffside Malibu's treatment philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The [substance abuse treatment](#) center has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering the best care on the planet to those individuals who need it. At Cliffside Malibu, nothing less than excellence will ever be acceptable.

"Our clients deserve the most effective support we can provide," said Cliffside Malibu Clinical Director Patricia Freeberry. "That's why we aim to meet each and every individual need of each and every individual resident, with everything from professional depression treatment to gourmet meals. It's also, we believe, why so many of those residents achieve meaningful and lasting wellness."

That passion for service and that record of success both set Cliffside apart from its competitors.

All rehabilitation clinics make bold promises in their advertising brochures. But only a handful live up to them. The unfortunate fact of the matter is that many of the most high-priced clinics in California fall far short of their own standards of quality. The result, unsurprisingly, is that those clinics can't be counted on to produce meaningful healing for their clients.

Cliffside administrators, for their part, insist that such failures are unacceptable.

"The stakes in the rehabilitation process are enormous," said Freeberry. "Our clients trust us with their lives, and we owe it to them to deliver the best treatment in the world. Whether it's special dual-diagnosis techniques or intensive emotional counseling, we stop at nothing to safeguard their long-term health."

Substance abuse is a devastating disease. Substance abuse treatment can help to solve the problem-but only if it's administered by competent and compassionate experts in a secluded and elegant environment. Cliffside Malibu has a long history of combining clinical excellence with abounding luxury. As the center's successful graduates

have learned firsthand, no pairing could ever be more vital than that one.
