Industry: [Human Resources](#)

City, State, July 24, 2009 - National PEO LLC (Professional Employer Organization) offers safety compliance services along with a full spectrum of HR consulting expertise to a wide range of industries including food services, manufacturing, health care and construction.

Human Resources has been for years a frequently understaffed or overlooked department, especially in small and medium sized businesses that are focused on production and revenue rather than administrative requirements. However, it's often at this stage that companies are in most need of HR best practices to facilitate strategic growth and manage various regulatory compliance issues. National PEO offers programs that can help companies with any of their HR needs, including:

- Employee development and training.
- Staff programs, safety programs and employee handbooks.
- Compensation analysis.
- Regulatory compliance, including safety and environmental compliance.
- Regional taxation rules.
- Strategic planning.

National PEO clients benefit from the experience of a company that was founded ten years ago and has remained committed to remaining at the leading edge of professional employer organization best practices and well as emphasizing unparalleled customer service.

Arizona Environment Progress, Inc., a National PEO client has this to say: "The staff is courteous and helpful, and goes the extra mile for their clients. Their Human Resource Department is such a pleasure to work with. We can always get answers to our most difficult questions, and most times have the answer within one hour. We would recommend them to any company."

National PEO goes far beyond what typical a [HR Consulting Firms](#) offer, including the availability of bilingual support staff. Safety compliance includes providing a full safety inspection of the client's facility, following OSHA inspection standards, accompanied by a written report and photographs. Going beyond the level of a trial inspection, a full safety audit is also available. This includes an inspection, review of OSHA 300 logs for the past five years and a comprehensive review of the company's accident reports, safety training programs, environmental programs, hazardous material management plans and other relevant documentation. National PEO then assists the client to achieve abatement and compliance once an OSHA compliance inspection is completed.

For further information about National PEO's HR Consulting services, including safety compliance programs, payroll processing and employee benefits programs, please call 480-429-8098, or visit www.nationalpeo.com.
