*Platinum Barter Asia announces membership in DoBarter online bartering web network to aid economic crisis in action. New network membership out of South Korea aids the credit crisis worldwide by offering bartering medium of exchange.*

Creve Coeur, MO (EPR Network) August 10, 2009 – Platinum Barter Asia joins DoBarter network as bartering hub for worldwide bartering commerce facilitation. Bartering is the greatest impact free trade technology to alleviate the credit crisis. Once unheard of technology on 7 year old bartering network platform aids in conducting business without using a single dollar as medium of exchange. Unique attribute of trade dollar usage, lets you set prices in retail and trade unrestricted within international bartering network.

Platinum Barter Asia, a new player to the bartering world, and with a shared exclusive territory of South Korea, activates a position in a worldwide network going online today. The DoBarter network has been in place for over 7 years, as a genuine barter interexchange site for facilitation of ecommerce within a trade dollar medium of exchange philosophy.

In times of economic crisis, economy can be found in mediating trade while short on cash using a barter unit of exchange. DoBarter has patented the process of online barter as a worldwide leader in the barter community. Using genuine application service hosting, accessing a resilient barter network becomes easy in hard times, while maintaining network stability for the longer term.

An average barter transaction works as follows. A exchange exists as a firmament to flock to on the world wide web. It is typically a network run

exchange uniting various regions, and national territories to facilitate a larger community. A individual wishing to "barter" is someone whom has a trade balance of products or services where by the wish to enter them into the exchange to obtain exchange trade dollars for their sale or rendition. In exchange trade dollars are equally available for other exchange products or services, and also trade at a rate of \$1 to 1 Trade Dollar (Exchange). In return a territorial member whom operates on the exchange receive a incentive of some trade dollars for operating in that region, while dually being able to introduce members to a national or international market based on offerings.

We at Platinum Barter Asia just want to leave the light on in the financial community for dedicated business people whom must still remain active in times of economic crisis and credit crunch. By using exchange trade dollars it relieves an obligation of the end user or customer of the exchange to have stock in national currency or credit thereof. Thereby the term: exchange trade dollars.

Platinum Barter Asia is online now with an existing network exchange with tens of millions of dollars of products and services available for barter. Visit us today for your growing needs to alleviate the evaporating credit dollars of yourself and your B2B (Business to Business) transactions.

**About Platinum Barter Asia:**

Platinum Barter Asia is a new player to the barter marketplace, and wishes to compound on both the success of the 7 year old DoBarter DamnFast Networks member exchange philosophy and hope to be of highest regard nationally and internationally in times of the current economic forecast.
