Inc. Introduces the 2009 List of the 5,000 Fastest-Growing Private Companies in America

Staten Island, NY (September 3, 2009) – Inc. recently announced that Celerant Technology Corporation, a leader in the [retail software](#) industry, has once again achieved placement on the Inc. 5000. This is the second year that Celerant Technology has been featured on the list of the 5,000 fastest-growing private companies in the country, signifying the company's upward momentum toward increasing success. This list is the most comprehensive look at the most important segment of the economy – America's independent-minded entrepreneurs.

"Savvy trend spotters and those who invest in private companies know that the Inc. 5000 is the best place to find out about young companies that are achieving success through a wide variety of unprecedented business models, as well as older private companies that are still expanding at an impressive rate," said Inc. 5000 project manager Jim Melloan. "That's why our list is so eagerly anticipated every year."

Celerant Technology has continued to expand further within the retail software industry, providing an [advanced multichannel solution](#), along with a high level of service and ingenuity to clients for the past ten years. Since its inception in 1999, Celerant Technology has significantly grown in size and revenue and has been recognized by the industry with numerous awards for the complete software solution, Command Retail.

"We are again honored to be ranked on this year's Inc. 5000 list of the fastest growing companies in the nation," said Ian Goldman, President and CEO of Celerant Technology. "Our higher ranking for this year's list represents our commitment to our product and clients, which results in our continued success and growth, even in

these pressing economic times. We look forward to what the future will bring and to continuing our ascent up this prestigious list.”

The 2009 Inc. 5000 serves as a unique report card on the U.S. economy. Despite the ongoing recession, aggregate revenue among the companies on the list actually increased to \$214 billion, up \$29 billion from last year, with a median three-year growth rate of 126 percent. The Inc. 5000 are responsible for creating more than 1 million jobs since their founding; making the list perhaps the best example of the impact private, fast-growing companies can have on the economy. Complete results of the Inc. 5000, including company profiles and an interactive database that can be sorted by industry, region, and other criteria, can be found on Inc.com.

Celerant Technology’s ranking on the Inc. 5000 is a noteworthy accomplishment that demonstrates the financial growth of the company. The forward movement in placement further recognizes Celerant’s status as a leader in the [retail software industry](#).

About

Celerant

Technology

Celerant’s Command Retail is an advanced real-time retail management system, which manages all areas of retail including POS, Inventory Management, Warehouse, Distribution Center, Allocation, Multi-Channel/E-Commerce/Kiosk, Data Mining, and Back-office, in a single, integrated system. Our advantage is the flexibility of our Java platform, allowing Celerant professionals to conduct cost-effective analysis and adaptation based on the individual needs of each retailer. The result is a better system that meets the needs of retail businesses and gives them the tools to take Command of their success.
