Industry: [Healthcare](#)

[Malibu, CA] - Sunset Malibu, an exclusive treatment center on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in the personal battle against substance abuse.

Addiction is a profoundly personal problem. By the same token, addiction recovery must be a profoundly personal process. The best treatment clinics are those which help clients get better on their own terms and under their own power. In the end, there's simply no more solid foundation for meaningful and lasting wellness.

Those considerations, in turn, are at the heart of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, the [drug rehab program](#) at Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing care to individuals who seek it. At Sunset Malibu, the client always comes first.

"No two addiction victims are ever exactly alike," said Sunset Malibu program director Dr. Georgina Smith. "Our advanced dual-diagnosis techniques help us evaluate the individual needs of our individual clients, with the goal of designing exclusive treatment programs on a case-by-case basis. We believe that that attention to detail accounts for our extraordinary record of clinical success."

But that passion for personal service, unfortunately, is precisely what sets Sunset apart from its competitors.

Every treatment facility claims to recognize the importance of intimate and personalized addiction treatment. But only a handful of clinics actually put that principle into practice. The truth is that many of the most well-known rehab centers in California offer the same generic treatment programs to all of their clients. Unsurprisingly, these institutions generally fall short of the promises they make in their advertising brochures. Under the circumstances, those shortcomings are inexcusable.

"Successful rehab saves lives," Dr. Smith said. "We're fully aware of the stakes in the healing process, and we do everything in our power to ensure positive outcomes for our clients. To do anything less would be morally and professionally unacceptable."

It's no secret that addiction is a devastating disease. What might not be so obvious is that that devastation doesn't have to be the end of the story. Sunset Malibu has a long history of helping clients heal from the inside-out. As the center's successful graduates have learned firsthand, no project could ever be more worthwhile than that one.

Sunset Malibu offers a luxury alcohol and [drug treatment program](#) located in Malibu, California.
