[Malibu, CA] - Sunset Malibu, an elite treatment clinic on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in the personal battle against drug addiction and abuse.

Drug dependency is a personal problem. By the same token, drug recovery must be a personal process. The most successful treatment facilities are those which cater to the individual needs of their individual clients. In the end, no other course of action could ever possibly be expected to produce meaningful and lasting healing.

Those considerations, in turn, are at the heart of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The [drug rehab center](#) has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing care to individuals who seek it. At Sunset Malibu, the individual client always comes first.

"Every single one of our residents is unique," said Sunset Malibu Program Director Dr. Georgina Smith. "That's why our exclusive recovery programs are designed on a case-by-case basis, using every tool from personal nutritional counseling to professional treatment. We believe that our long record of success proves the effectiveness of our treatment strategies."

Sunset's competitors, meanwhile, can hardly make the same claims about their own treatment efforts.

Most rehab centers pay lip service to the importance of personalized treatment. But very few of them live up to their own standards. In fact, a number of the most high-priced clinics in California treat every client more or less the same way, as if recovery could be turned into an assembly-line process. Unsurprisingly, these institutions routinely fall short of the promises they make in their advertising; those shortcomings are inexcusable.

"Rehab is a literally a matter of life and death," Dr. Smith said. "At Sunset Malibu, we understand what's at stake for our clients, and we do everything in our power to help them get all the way to where they need to go. To offer an inferior level of service would be both unprofessional and unethical."

It's no secret that drug addiction ruins lives. The good news here is that Sunset Malibu really can solve the problem. Sunset's licensed clinical caregivers have a long history of helping clients heal from the inside-out. Now more than ever before, the center's residents have reason to believe in a happier and healthier tomorrow.
