SUMMER savings are, literally, all over the shop at Co-operative Electrical, is making a host of tempting offers on a range of models from leading makers Candy and Hoover.

Right now you can save up to £115 on models from these well-known manufacturers, and have your shiny new fridge freezer delivered FREE to your door inside two working days!

You can browse through the fabulous range available at leisure, and even do an immediate comparison between your top choices, so that you find exactly the right model for your family's needs.

All Co-operative Electrical Shop's fridges, freezers and fridge freezers are CFC and HFC-free, meaning that they are kinder to the environment, and easier to dispose of when they reach the end of their life.

The range currently on offer through the website runs through from compact, space-saving fridges with an ice box, to frost-free models which offer huge capacity for both refrigeration and freezing.

There's a model to suit everyone's budget, too. These top-brand fridges start at just £179 – and even at that price, you're still saving around 15% on the recommended price, the equivalent of Co-operative Electrical paying the VAT on your new purchase!

Every model is backed with the manufacturer's full guarantee, and you can also fully protect your new appliance against unforeseen repair bills and even all damage – including accidental – with a Repair Protection Plan backed by Domestic & General, the specialists in such policies, with more than 50 years' experience, who currently safeguard more than six million products in the UK.

All these sale appliances also qualify for free delivery – details of the conditions which apply to this service are available on the website.

And don't forget, these are the latest models from two of the UK's top brands, meaning that you can be sure that they are all equipped with the latest technological and money-saving features, and boast the most up-to-date design.

Co-operative Electrical's fast but friendly delivery drivers will even save you the worry and hassle of disposing of your old fridge or freezer ensuring, for just an extra £10, that it is taken to a registered contractor, where all its components will be either safely disposed of or recycled. It's all part of the service which has made The Co-operative Group Britain's leading ethical high street retailer.

So don't be frozen out - head to [www.cooplectricalshop.co.uk](http://www.cooplectricalshop.co.uk) today, and however warm it gets, you'll be guaranteed a cool summer!
