[Malibu, CA] - Cliffside Malibu, a prestigious recovery facility on the Malibu coast, has long been a leading light in the California treatment community. Now, the center is pleased to announce its renewed commitment to helping clients win the long-term battle against substance abuse.

Addiction is a resilient disease. Addiction treatment, then, must be driven by resilient effort. The only successful treatment facilities are those which stand by their clients at every step along the road to recovery. In the end, any inferior level of care is and can only be a recipe for failure.

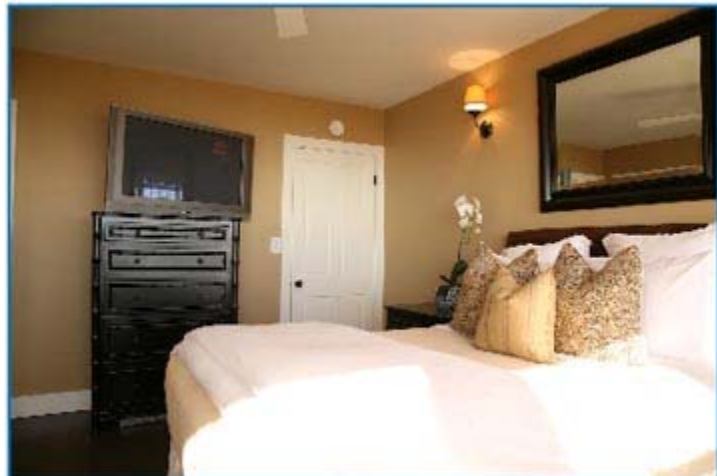

Those principles, in turn, are the bedrock of Cliffside Malibu's treatment philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The [rehab center](#) has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering the best care on the planet to those individuals who need it. At Cliffside Malibu, nothing less than start-to-finish excellence will ever be acceptable.

Cliffside Malibu Clinical Director Patricia Freeberry. Our commitment to our clients begins with our advanced dual-diagnosis techniques and continues through sober living programs and independent 12-Step support groups. We believe that our record of success testifies to the merits of our approach."

More importantly, that record of success is also precisely what distinguishes Cliffside from its competitors.

Every treatment facility

promises to help its clients get all the way to where they need to go. But few of them follow-through. The unfortunate truth is that many of the most high-priced clinics in Los Angeles essentially abandon their patients after they complete their primary rehab programs. As should perhaps be obvious, those institutions rarely live up to the standards they espouse in their advertising brochures.

For recovery patients and their families, say Cliffside administrators, that sort of failure is unacceptable.

"Our clients trust us to save their lives," said Freeberry. At Cliffside Malibu, we view it as our duty to provide the best possible support through every phase of the healing process. To do anything less would be both unprofessional and unethical."

No addiction victim needs to be told about the perils of the disease. The good news here is that those perils don't have to be fatal. Cliffside Malibu has a long record of helping clients heal from the inside-out, in a way that helps them stay sober over the long run. As the center's successful graduates have learned firsthand, no outcome could ever possibly be more meaningful.
