[Malibu, CA] - Sunset Malibu, an elite treatment clinic on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in helping clients achieve sustainable emotional wellness.

Addiction is a psychologically crippling disease. To succumb to drug or alcohol abuse is to be stripped of one's dignity, and one's capacity for hope. The best treatment facilities, then, are those which help their clients learn to feel good about themselves again. In the end, there's no other way to lay the basis for meaningful and lasting recovery.

Those considerations, in turn, are the pillars of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The [drug rehab center](#) has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing care to individuals who seek it. At Sunset Malibu, the client's personal well-being always comes first.

"Most of our residents come to us with severe emotional issues," said Sunset Malibu Program Director Dr. Georgina Smith. "Our dual-diagnosis techniques and depression treatment programs are specially designed to help them overcome those issues, and

to prepare them for the psychological challenges of long-term sobriety. We believe that that holistic approach accounts for our remarkable record of clinical success."

Unfortunately, that holistic approach is precisely what sets Sunset apart from its competitors.

Most treatment centers adequately address the physical symptoms of addiction. But very few facilities devote sufficient resources to their emotional therapy programs. Indeed, many of the most "exclusive" clinics in California effectively ignore the psychological needs of their residents. As should go without saying, these clinics generally fail to help clients get all the way to where they need to go.

Dr. Smith, for her part, asserts that those shortcomings are inexcusable.

"Our clients trust us with their lives," Dr. Smith said. "We're both humbled and inspired by the responsibility, and we stop at nothing to ensure the success of the healing process. Given the stakes, any other course of action would be absolutely unacceptable."

No addiction victim needs to be told about the perils of the disease. The good news here is that those perils don't have to be fatal. The clinical psychologists and licensed clinical social workers at Sunset Malibu have a long history of helping clients heal from the inside-out. Now more than ever before, the center's residents have reason to believe in a healthier and more hopeful future.
