

Convert AVCHD Video To Other Formats Supported By Windows® Media Player, Movie Maker And Premiere

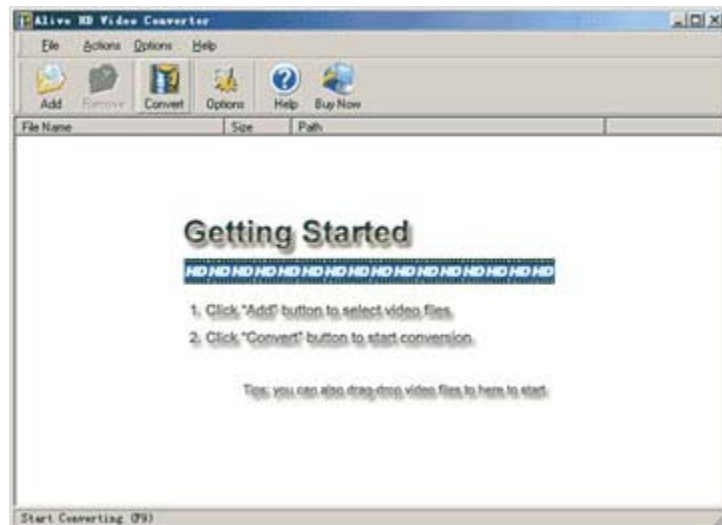

Released on: October 15, 2009, 11:01 am

Author: AliveMedia.net

Industry: [Software](#)

AliveMedia.net, an independent software developer has recently released Alive HD Video Converter version 2.0.2.8, a professional and easy to use HD video converter software for the Windows 98/NT/ME/2K/XP/2003/Vista/7 platforms, that can convert AVCHD m2ts, mts, m2t HD video files to other popular video formats, which supported by Microsoft® Movie Maker, Windows® Media Player or Adobe® Premiere Pro.

AVCHD is a high definition video format for use in AVCHD digital camcorder, including Sony® HDR-SR12E, Sony® HDR-SR1E, Canon® HF-100, Canon® HG-10, Panasonic® HDC-SD1. The system requirements for AVCHD editing software currently limit it to powerful high end PC. Alive HD Video Converter makes it easy to edit these footages from AVCHD camcorder in Microsoft® Movie Maker or other video editing software.

Currently Alive HD Video Converter supports the following output formats: AVI, WMV, MPEG-1, MPEG-2, DivX, XviD, MP4, VOB, MOV and MP3. More over, Alive HD Video Converter also supports converting most of video

formats to HD video format, such as WMV-HD, MPEG2-HD, DivX-HD, Xvid-HD, MPEG4-HD, H.264-HD. This solution makes it possible to watch high definition movies in 1280x720 (720p) or 1920x1080 (1080p) resolutions on all personal computer, PS3, XboX, Apple TV and other devices.

Despite Alive HD Video Converter is an all-in-one video tool, but we provide an easy way for both of new and advanced users. With only a few clicks, it will be able to complete the conversion quickly. In this new version, command line is supported for advanced users. The free trial version is available at our website: <http://www.alivemedia.net/hd-video-converter.htm>.
