[Malibu, CA] - Cliffside Malibu, a prestigious recovery facility on the Malibu coast, has long been a leading light in the California treatment community. Now, the center is pleased to announce its renewed commitment to the fight against clinical depression combined with drug addiction.

Depression, just like [drug addiction](#), is never a matter of choice. On the contrary, the disease exists beyond the willful control of its victims. No one ever decides to be sick. And, more importantly, no one can ever simply decide to get better. In the end, the road to recovery must and does run through a professional addiction treatment facility.

Those principles, in turn, are the bedrock of Cliffside Malibu's treatment philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The center has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering the best depression therapy and drug treatment on the planet to those individuals who need it. At Cliffside Malibu, nothing less than excellence will ever be acceptable.

"Addiction treatment is a delicate process," said Cliffside Malibu Clinical Director Patricia Freeberry. "To be successful, it has to be administered by competent and compassionate experts. Our clinical psychologists and licensed clinical social workers

are leading figures in their respective fields. That, we believe, is why our clients enjoy such a robust rate of success."

And that success, in no uncertain terms, is precisely what distinguishes Cliffside from its competitors.

Many rehabilitation facilities offer depression treatment services. But very few of them devote adequate resources to the dual diagnosis and recovery process. In fact, many of the most high-priced clinics in Los Angeles provide inferior psychological therapy to their clients. Unsurprisingly, those clinics rarely produce meaningful or lasting wellness.

For recovery patients and their families, say Cliffside administrators, that sort of failure is unacceptable.

"Depression recovery is literally a matter of life and death," said Freeberry. "Our clients trust us to safeguard their futures, and we do everything in our power to help them get where they need to go. To do anything less would be both unprofessional and unethical."

Every addiction and depression victim knows how devastating the disease can be. The good news here is that Cliffside Malibu really can help to solve the problem. Cliffside's licensed clinical experts have a long record of helping clients rebuild their lives from the ground-up. Under the circumstances, it's hard to imagine that any goal could ever be more worthwhile than that one.
