[Malibu, CA] - Cliffside Malibu, an elegant recovery center on the Malibu coast, has long been a leading light in the California treatment community. Now, the center is pleased to announce its renewed commitment to providing residents with an unparalleled healing environment.

Rehabilitation doesn't take place in a vacuum. On the contrary, every treatment facility is invariably shaped by the nature of its physical surroundings. Unsurprisingly, the most successful institutions are generally those located in the most serene and secluded locations. In the end, there's simply no better place to pursue meaningful and lasting recovery.

Those principles, in turn, are the bedrock of Cliffside Malibu's treatment philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The center has always catered to an elite clientele. From [drug intervention](#) services to sober living services, now Cliffside is expanding its mission, with the goal of delivering the best care on the planet in the best healing environment on earth. At Cliffside Malibu, nothing less than excellence will ever be acceptable.

"Our location is essential to our success," said Cliffside Malibu Clinical Director Patricia Freeberry. "Whether it's drug and alcohol rehab or eating

disorder treatment, Cliffside Malibu's private estate helps clients build the peace of mind on which all recovery must be built. "

And that, in no uncertain terms, is precisely what distinguishes Cliffside from its competitors in other parts of the country.

Most treatment facilities really do care about their clients. But every clinic is inherently limited by its geographical location. The fact of the matter is that Malibu rehab centers are uniquely situated to help clients achieve meaningful and lasting wellness. No matter how hard they try, institutions located elsewhere simply can't recreate the Malibu experience.

For recovery patients and their families, say Cliffside administrators, that sort of failure is unacceptable.

"Rehab is a matter of life and death," said Freeberry. "Cliffside Malibu's uniquely tranquil location ensures that residents have the best possible chance to achieve successful treatment outcomes. Under the circumstances, it's hard to imagine how anyone could ever settle for an inferior alternative."

Addiction is a devastating disease. The good news here is that devastation doesn't have to be the end of the story. Cliffside Malibu has a proven record of helping residents rediscover the world as they used to know it, and themselves as they used to be. For the center's successful graduates, the future really does promise to be brighter than the past.
