PRAGUE, CZECH REPUBLIC, October 5– Winners of the Cosmetic Surgery Competition reveal their experiences with their cosmetic surgery treatments in Prague.

Five UK ladies, winners of the UK Cosmetic Surgery Competition run by <http://www.cosmetic-plastic-surgery.info>, underwent their chosen surgical treatments in Prague, Czech Republic.

Charlotte, Helen, Kathryn, Vicky and Clare shared a dream: that cosmetic plastic surgery would change their life for the better. Each of them had a different problem, impeding either their private life or their career opportunities.

Helen, 27, from Shelf Halifax said: "For me, the surgery was not necessarily just so that I could look pretty in clothes, but to close a chapter of my life that was very hard to deal with. At 14 years old, I was scouted by a model agency but put on four stone within the next year, so my hopes were dashed. I found being overweight to be very depressing and hard to deal with, and my saggy stomach was a constant reminder of those days. I felt like I was carrying a piece of someone else around with me and found it so frustrating that I couldn't do anything to get rid of it after I had worked so hard to lose the weight."

Life changed for Helen and her co-winners during May – June 2009 when they all underwent their chosen cosmetic surgeries. Tummy tuck, rhinoplasty, breast remodelling and breast enlargement were performed by leading Czech plastic surgeons: Tomas Dolezal M.D., Josef Kulhanek M.D., Karel Urban M.D., Roman Kufa M.D. and Libor Kment M.D.

"I really enjoyed the whole experience and I would recommend to anyone who is considering surgery to go for it. It really has changed my mind and I would do it all again in a heartbeat. The staff of the Esthe clinic was really helpful and I felt really looked after. Again „Thank you!“ for this fantastic opportunity and you have truly

changed my life forever!" said Charlotte (22), a young mother from London. She had had two children at a very young age, which had completely ruined her breasts. The resultant loss of shape and too much of excess skin destroyed her confidence as a woman. In the end, it ruined her relationship with the father of her children and caused a deep depression and feelings of insecurity in starting a new relationship.

Pavel Hilbert, Chief Executive of <http://www.cosmetic-plastic-surgery.info> said: "Breast enlargement surgery restored Charlotte's self-confidence. She is once again the happy young lady she used to be, enjoying life, her kids and a new relationship." She is only one of the thousands of satisfied patients who have placed themselves into the skilled hands of Czech plastic surgeons. The Czech Republic, a centre of modern plastic surgery, numbers among countries with a low rate of MRSA infections compared to Great Britain, Ireland, USA or Japan, for example. Czech plastic surgeons are highly educated, trained, skilled and qualified. "We are happy we have helped five ladies achieve their dreams, allowing them to take advantage of the high-quality care and dedicated professional service of Czech plastic surgeons." adds Hilbert
