Icecool.co.uk announces the Stepping Stone diamond pendant as a new fashion-forward addition to its diamond jewellery collections, which feature diamond engagement rings, dazzling diamond earrings and necklaces, for contemporary or traditional romantic diamond gifts.

The London diamond jewellery company, Icecool.co.uk, creates contemporary diamond jewellery to suit all occasions and budgets. Icecool's dazzling diamond pendants, or minimalist diamond stud earrings, are complemented by a bespoke service, You Dream, We Create, which helps customers design their own diamond jewellery.

Experienced Icecool consultants help customers select from a range of traditional style diamond rings, for example, the Princess Solo cut diamond engagement ring, or Romantique ring featuring a

diamond pave band, or the contemporary Goth Glam range set with black diamonds.
