

Invest In A Better World For Orphan Children

Released on: October 14, 2009, 5:06 am

Author: [Petya I. Edwards Foundation](#)

Industry: [Non Profit](#)

Every day 5,760 more children become orphans...

The statistics are startling: it's estimated that there are 143 million orphans worldwide. Even though many children are adopted, many more grow up as orphans and age out of the system by age sixteen - with no family to belong to and no place to call home.

In a perfect world, there would be no [orphans](#) and no need for adoptions. Families would stay intact, and children would be raised by loving parents and/or grandparents, but this is not the reality for all too many orphans.

Won't you join with me in caring for the urgent needs of poverty-stricken orphans throughout the United States? Together we can make a difference for precious children who are alone in the world.

Invest in a better world for orphaned children ...

We are seeking generous partners to provide resources that will give these children a future filled with hope. In addition to financial donations, please consider other ways that you can help. [Orphanages](#) can use a variety of material resources – cars, property, computers, medical supplies, clothing, furniture, bedding, toys, etc. Your contribution will bless disadvantaged orphans as well as impact future generations.

Together we can make a difference for these precious Children.
