[Malibu, CA] - Cliffside Malibu, a prestigious recovery facility on the Malibu coast, has long been a leading light in the California drug abuse treatment community. Now, the center is pleased to announce its renewed commitment to helping celebrity clients heal in absolute privacy.

Drug abuse is a personal problem. [Drug treatment](#) must be a private process. The best drug abuse treatment facilities, then, are those which shield their celebrity clients from public scrutiny. In the end, anything less than the utmost confidentiality is a recipe for failure.

Those principles, in turn, are the bedrock of Cliffside Malibu's drug abuse treatment philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The center has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering the most exclusive care on the planet to those individuals who need it. At Cliffside Malibu, nothing less than excellence will ever be acceptable.

"Celebrity drug abuse victims face unique challenges on the road to wellness," said Cliffside Malibu Clinical Director Patricia Freeberry. "Our job is to provide them with all the support they need to get better-and to do so in

an environment that respects their privacy. We believe that our record of success speaks to the effectiveness of our strategies."

Unfortunately, that commitment to privacy and personal dignity is precisely what distinguishes Cliffside from its competitors.

It's one thing for a drug abuse treatment center to pay lip service to the importance of client privacy. It's quite another for that facility to live up to its own standards. In fact, many of the most "exclusive" drug abuse treatment clinics in Los Angeles actively leak information about celebrity clients to the media in order to promote their own services. As should go without saying, these institutions generally fall far short of the promises they make to their residents.

For recovery patients and their families, say Cliffside administrators, that sort of failure is unacceptable.

"The stakes in the rehabilitation process are enormous," said Freeberry. "At Cliffside Malibu, we're both humbled and inspired by the trust our clients place in us, and we do everything in our power to justify their faith."

It's no secret that drug abuse ruins lives. The good news is that Cliffside Malibu really can help victims rebuild from the ground-up. Cliffside has a long record of facilitating meaningful and lasting drug abuse recovery. As the center's high-profile clients have learned firsthand, no service could ever be more important than that one.

Cliffside Malibu is offers luxury alcohol and [drug treatment programs](#) and is located in Malibu, California.
