Author: [Sunset Malibu](#)

Industry: [Healthcare](#)

[Malibu, CA] - Sunset Malibu, an exclusive treatment clinic on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in the fight against anorexia and bulimia.

An [eating disorder](#) is a disease. Like any disease, it can only be eradicated by professional medical treatment. Any eating disorder victim who tries to heal without expert help is almost invariably doomed to fail. In the end, there's simply no road to recovery except that which runs through a private eating disorder treatment center.

That emphasis on professionalism and expertise lies at the very heart of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing eating disorder treatment to individuals who seek it. At Sunset Malibu, the client always comes first.

"We exist only and entirely to meet the needs of our residents," said Sunset Malibu Program Director Dr. Georgina Smith. "When a client comes to us with an eating disorder, it's our job-our duty-to help her find a way forward. We take our

responsibility with the utmost seriousness, and we believe that our commitment is reflected by our record of success."

But that success, unfortunately, is precisely what sets Sunset apart from its competitors.

Many drug and alcohol rehabilitation facilities moonlight as eating disorder treatment centers. But very few of them provide adequate eating disorder treatment services to their clients. Indeed, many of the most high-priced clinics in California fall far short of the standards they espouse in their advertising brochures. The obvious consequence, of course, is that those institutions routinely fail to help patients achieve meaningful recovery.

Dr. Smith believes that those shortcomings are inexcusable.

"There's no excuse for inferior treatment center performance," Dr. Smith said. "At Sunset Malibu, we know what our clients need to get better, and we do everything in our power to ensure the success of the healing process. To do anything less than that would be an unforgivable breach of professional ethics and personal accountability."

Eating disorder treatment really can change lives-but only if it's administered by competent and compassionate experts. Sunset Malibu's eating disorder treatment specialists are leading figures in their respective fields. They know how recovery works. More importantly, they know how to make it work for each and every one of their clients. As those clients have learned firsthand, no skill could ever possibly be more valuable than that one.

Sunset Malibu is a luxury [eating disorder treatment](#) center located in Malibu, California.
