[Malibu, CA] - Sunset Malibu, an exclusive treatment center on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in the pursuit of sustainable holistic recovery.

Addiction is both a physical and psychological disease. Addiction treatment, then, must promote both physical and psychological healing. The only successful [rehab](#) facilities are those which help their clients get better in mind as well as in body. In the end, there's no other route to meaningful and lasting wellness.

Those considerations, in turn, are at the heart of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing comprehensive care to individuals who seek it. At Sunset Malibu, the client always comes first.

"Every one of our clients comes to us with some sort of emotional problem," said Sunset Malibu Program Director Dr. Georgina Smith. "It's our job to ensure that that problem gets solved, in order to lay a solid foundation for the long-term recovery process. With everything from advanced dual-diagnosis techniques to intensive depression treatment, we make it our mission to help patients heal from the inside-out."

Unfortunately, that passion for holistic healing is precisely what sets Sunset apart from its competitors.

Most treatment facilities pay lip service to the importance of holistic recovery. But very few of them live up to their own promises. The truth is that many of the most "exclusive" clinics in California only target the physical symptoms of addiction. More often than not, those facilities fail to help clients get better for good.

Under the circumstances, argues Dr. Smith, those shortcomings are inexcusable.

"Addiction ruins lives," Dr. Smith said. "Addiction treatment can save them-but only if it's administered with empathy and expertise. We stop at nothing to ensure that our clients receive the best possible support along the road to wellness. To do anything less would be to forsake our personal and professional obligations."

Substance abuse is an increasingly prevalent problem in the United States and around the world. The good news here is that it doesn't have to be a fatal one. Sunset Malibu has proven itself capable of helping clients rediscover the world as they used to know it, before addiction stripped them of their hope and joy and dignity. It's hard to imagine that any service could ever possibly be more valuable than that one.

Among the finest [rehab](#)s in the world, Sunset Malibu is a luxury drug and alcohol treatment center located in Malibu, California.
