Industry: [Healthcare](#)

[Malibu, CA] - Sunset Malibu, a prestigious treatment clinic on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in the fight against drugs, and even anorexia and bulimia starting with successful intervention services.

Addiction ruins lives. An [intervention](#) followed directly by addiction treatment can solve the problem-but only if it's administered by competent and compassionate professionals. Even something as severe as a heroin addiction can lead to an eating disorder, wherein lies the importance of dual diagnosis. The practical implication, of course, is that the only successful treatment facilities are those which devote robust resources to their wellness programs. In the end, anything less than that is a recipe for failure.

Those considerations, in turn, are at the heart of Sunset Malibu's eating disorder treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing eating disorder therapy to individuals who seek it. At Sunset Malibu, the client's needs always come first.

"Addiction treatment is always a delicate process," said Sunset Malibu Program Director Dr. Georgina Smith. "To be successful, it has to be administered exactly the right way, with excruciating attention to detail. We believe that our commitment to excellence is reflected by our long record of clinical effectiveness."

That passion for precision is precisely what sets Sunset apart from its competitors.

Many rehab facilities dabble in interventions and dual diagnosis treatment. But very few of them devote proper resources to the healing process. The unfortunate truth of the matter is that many of the most well-known clinics in California fall far short of the promises they make to victims of addiction. It should go without saying that these clinics can't be counted on to produce meaningful and lasting recovery.

Dr. Smith asserts that such shortcomings are absolutely unforgivable.

"The stakes in the treatment process are enormously high," Dr. Smith said. "At Sunset Malibu, we understand that our clients trust us to save their lives, and we take the responsibility with the utmost seriousness. To do anything less would be a breach of personal and professional duty."

No drug abuse or eating disorder victim needs to be told about the perils of the disease. The good news is that those perils don't have to be fatal, provided victims receive assistance from qualified professional experts. Sunset Malibu has a long history of helping clients heal from the inside-out. Now more than ever before, the center's residents have reason to believe in a healthier and happier future.

Sunset Malibu is a luxury addiction treatment and [detox](#) center located in Malibu, California.
