

# Breast Implants Being Replaced More than Ever Before

Released on: November 12, 2009, 9:01 am

Author: [The Hospital Group](#)

Industry: [Healthcare](#)

The Hospital Group has reported that over the past 3 years, half of all women with implants are having their old breast implants replaced.

[Breast enlargements](#), or "boob jobs" as they are more commonly known, are one of the most popular cosmetic procedures available. This procedure helps women achieve a "curvier" form. It is popular with women who are naturally small busted or those that have noticed a change in their bust size due to weight loss, breastfeeding or the natural ageing process.

Regarding implant replacement, a spokesperson for The Hospital Group, said: "A lot of our breast augmentation patients wish they had gone a little bigger so therefore choose to have another procedure with larger implants. We also treat patients who have had a [breast implants](#) elsewhere and then choose The Hospital Group for their second procedure."

The Hospital Group is one of the UK's leading providers of [Plastic Surgery](#), number one in Obesity Surgery and Breast Enlargement experts. So whatever your requirements, you're in safe hands!

Since The Hospital Group was established in 1992, it has risen to become the UK's biggest weight loss surgery providers, performing more gastric procedures last year than the NHS. The Hospital Group is committed to providing the very highest standards and all procedures are performed by an expert medical team in state-of-the-art facilities that are second to none.

For further information of The Hospital Group's range of cosmetic surgery procedures, surgery-seekers should visit the website [www.thehospitalgroup.org](http://www.thehospitalgroup.org) or call our patient care coordinators on 0845 762 6727.
