Author: [The Hospital Group](#)

Industry: [Healthcare](#)

The Hospital Group has reported that the number of women choosing to have a breast reduction has gone up by 78% since 2005.

The main reason for considering a breast reduction, or reduction mammoplasty is that an over generous bust size can be distressing or uncomfortable.

Large breasts can often be the cause of significant physical discomfort and self-consciousness. [Breast reduction](#) surgery could significantly help to relieve the constant backache or shoulder pain associated with big breasts.

Regarding the reductions, a spokesperson for The Hospital Group, said: "We have seen a noticeable rise in women wanting to feel less self-conscious about their bodies. A lot of women with naturally large breasts are embarrassed because of their size and feel insecure as they can attract a lot of unwanted attention."

The Hospital Group is one of the UK's leading providers of [Plastic Surgery](#), number one in Obesity Surgery and Breast Enlargement experts. So whatever your requirements, you're in safe hands!

Since The Hospital Group was established in 1992, it has risen to become the UK's biggest weight loss surgery providers, performing more [gastric band](#) procedures last year than the NHS.

The Hospital Group is committed to providing the very highest standards and all procedures are performed by an expert medical team in state-of-the-art facilities that are second to none.
