Industry: [Healthcare](#)

[Malibu, CA] - Cliffside Malibu, a prestigious recovery facility on the Malibu coast, has long been a leading light in the California treatment community. Now, the center is pleased to announce its renewed commitment to providing clients with personal and professional detox programs.

Addiction is at root a physiological disease. Addiction recovery, then, must always begin with physiological healing. The best detox and addiction treatment facilities are those who employ skilled [detox](#) experts capable of helping clients overcome the physical bonds of substance dependency. In the end, there's simply no other way to produce meaningful and lasting wellness.

Those principles, in turn, are the bedrock of Cliffside Malibu's treatment philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The center has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering the best care on the planet to those individuals who need it. At Cliffside Malibu, nothing less than excellence will ever be acceptable.

"Addiction recovery is impossible without successful detox," said Cliffside Malibu Clinical Director Patricia Freeberry. "Our exclusive detox programs are designed to help our residents recover without suffering along the way. That sort of pain-free experience helps to account for the long-term success of our rehab efforts."

Unfortunately, that passion for comprehensive care is precisely what distinguishes Cliffside from its competitors.

It's one thing for a rehab facility to pay lip service to the importance of detox. It's quite another thing for that facility to devote adequate resources to its detox programs. The truth is that many of the most high-priced clinics in Los Angeles marginalize the detox process. More often than not, those institutions fail to help clients heal from the inside-out.

Cliffside administrators, for their part, say that that sort of failure is unacceptable.

"Our clients trust us to save their lives," said Freeberry. "We understand exactly what's at stake, and we do everything in our power to ensure the lasting success of the healing process. To do anything less would be professionally irresponsible and ethically unconscionable."

Addiction ruins lives. Addiction treatment can help to solve the problem-but only if it's administered by people who understand exactly what they're doing. Cliffside Malibu's detox experts have a long record of clinical success. For the center's residents, no other consideration could ever possibly be more important than that one.

Cliffside Malibu is a luxury drug and alcohol treatment center offering [heroin detox](#) programs and more, located in Malibu, California. For further details about Cliffside's treatment methods, amenities, or other general information on [opiate detox](#) and other addiction treatments, please call 1-800-501-1988 or visit our Web site at www.cliffsidemalibu.com.
