[Malibu, CA] - Sunset Malibu, an exclusive treatment center on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in helping clients win the fight against addiction on their own terms.

Substance abuse is a personal problem. By the same token, substance abuse recovery must be a personal process. The most successful drug and [alcohol treatment](#) facilities are invariably those which help clients develop the skills and strength they need to heal themselves from the inside-out. In the end, there's no simply no other credible foundation for meaningful and lasting wellness.

Those considerations, in turn, are at the heart of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing care to individuals who seek it. At Sunset Malibu, the client always comes first.

"The best addiction treatment is always empowering addiction treatment," said Sunset Malibu Program Director Dr. Georgina Smith. "Our exclusive treatment

programs are specifically designed to help clients help themselves, with everything from personal nutritional counseling to professional depression treatment. We believe that our long record of success proves the soundness of our methods."

Unfortunately, that passion for personal empowerment is precisely what sets Sunset apart from its competitors.

Most rehab centers pay lip service to the importance of empowerment in their advertising brochures. But very few facilities live up to their own standards. The truth is that many clinics treat their clients like babies, by leading them to believe that rehabilitation is or should be a passive process. As should perhaps go without saying, those institutions rarely produce sustainable healing.

Under the circumstances, argues Taite, such shortcomings are inexcusable.

"You don't get any second chances in the rehab process," Dr. Smith said. "You either get it right the first time or your client pays an unimaginable price. At Sunset Malibu, we understand exactly what's at stake, and we do everything in our power to help our residents get where they need to go. We'd have no business offering our services if we weren't committed to doing that much."

It's no secret that addiction ruins lives. The good news here is that addiction treatment really can help to solve the problem. The clinical experts at Sunset Malibu have a long history of helping clients rebuild their lives from the ground-up. Now more than ever before, the center's residents have reason to believe that tomorrow will be better than today.

Sunset Malibu is a luxury drug and [alcohol treatment center](#) located in Malibu, California.
