[Malibu, CA] - Sunset Malibu, an exclusive drug rehab center on the California coast, has long been a transformational force in the field of addiction treatment and recovery. Now, Sunset is announcing its redoubled efforts in helping clients get sober on their own terms.

Every addiction victim is unique. By the same token, no two [long term drug rehab](#) programs should be exactly alike. The most successful drug rehab centers are invariably those which cater to the individual needs of their individual clients. In the end, there's simply no better way to ensure a positive outcome to the healing process.

Those considerations, in turn, are at the heart of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing care to individuals who seek it. At Sunset Malibu, the client always comes first.

"Addiction is a personal problem," said Sunset Malibu Program Director Dr. Georgina Smith. "Recovery has to be a personal process. That's why our exclusive drug rehab programs are designed on a case-by-case basis-and why so many of our clients achieve meaningful and lasting wellness."

Unfortunately, that passion for personal service is precisely what sets Sunset apart from its competitors.

Every drug rehab center pays lip service to the importance of individualized treatment programs. But few facilities live up to their own standards. In fact, many of the most high-priced drug rehabs in Los Angeles offer the same generic therapy to all of their clients. More often than not, these institutions fail to produce lasting results.

Under the circumstances, argues Dr. Smith, those shortcomings are inexcusable.

"Our clients trust us to save their lives," Dr. Smith said. "We're professionally and morally obligated to do everything in our power to help them. We wouldn't deserve to be in business if we weren't ready to make that kind of commitment."

Drug addiction is a devastating disease. Drug rehab can help to solve the problem, but only if it's administered by people who know exactly what they're doing. Sunset Malibu's expert caregivers are the best in the world at what they do. The only question that remains is whether addiction victims in California and around the globe will be wise enough to seek their help.
