[Malibu, CA] - Sunset Malibu, an exclusive treatment center on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in providing clients with holistic drug rehab programs.

Drug addiction is a disease with both physical and psychological causes. An effective [inpatient drug rehab](#) program is one that attacks both of these roots, by helping clients heal in mind as well as in body. In the end, there's simply no better way to ensure the lasting success of the drug recovery process.

Those considerations, in turn, are at the heart of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing care to individuals who seek it. At Sunset Malibu, the client always comes first.

"Every addiction victim suffers from sort of psychological distress," said Sunset Malibu Program Director Dr. Georgina Smith. "A drug rehab program can only be successful if it alleviates that distress while simultaneously countering the physical effects of addiction. That's why our exclusive drug rehab programs are explicitly designed to promote both psychological and physiological wellness-and why our

residents enjoy such a robust rate of success."

Unfortunately, that passion for holistic treatment is precisely what sets Sunset apart from its competitors.

Many drug rehab facilities pay lip service to the importance of holistic recovery. Few of them, however, put their own principles into practice. In fact, a number of the most well-known clinics in Los Angeles provide their clients with one-dimensional rehab programs. It should come as no surprise that those institutions routinely fail to promote meaningful and lasting wellness.

Under the circumstances, argues Dr. Smith, those shortcomings are inexcusable.

"Our clients trust us to save their lives," Dr. Smith said. "We believe that it's our duty to do everything in our power to justify that trust. To do anything less would be both unprofessional and immoral."

Drug addiction is a ruinous disease. The good news here is that the right drug rehab program really can help to solve the problem. Sunset Malibu has a long history of helping clients rebuild their lives from the ground-up. The only question that remains is whether addiction victims in California and around the world will be wise enough to seek help from the best caregivers in the industry.
