[Malibu, CA] - Cliffside Malibu, an upscale recovery facility on the Malibu coast, has long been a leading light in the California treatment community. Now, the center is pleased to announce its renewed commitment to providing clients with gentle and compassionate detox programs.

Detox doesn't have to be a painful process. On the contrary, a personalized [detox](#) program administered by a professional detox facility can help an addiction victim get sober without suffering along the way. The key, of course, lies in the expertise of the caregivers. In the end, there's simply no substitute for the best possible detox treatment.

Those principles, in turn, are the bedrock of Cliffside Malibu's rehabilitation philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The center has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering pain-free detox to those individuals who need it. At Cliffside Malibu, nothing less than absolute excellence will ever be acceptable.

"A patient's detox experience sets the tone for the rest of his or her rehab program," said Cliffside Malibu Clinical Director Patrica Freeberry. "That's why it's so important

that detox be as painless as possible-and why we devote such extensive resources to providing our clients with the best detox care in the industry."

Cliffside's competitors, meanwhile, can hardly heap such praise upon their own detox efforts.

It's one thing for a rehab facility to offer detox services. It's quite another for that facility to make a full commitment to the detox process. The unfortunate truth is that many of the most well-known rehab centers in Los Angeles provide inferior detox programs to their clients. More often than not, those institutions fail to promote meaningful or lasting addiction recovery.

Cliffside administrators, for their part, insist that that sort of failure is inexcusable.

"Our clients trust us to save their lives," said Freeberry. "It's our job to justify the trust they invest in us, by providing them with the best possible care through every phase of the recovery process. To do anything less would be a violation of our professional and moral obligations."

Addiction recovery is never easy. The good news, though, is that the right support can make the experience uplifting rather than painful. Cliffside Malibu has a long record of helping clients heal from the inside-out, in a way that allows them to rediscover life as they used to know it, and themselves as they used to be. Under the circumstances, it's hard to imagine that any service could ever be more important than that one.
