[Malibu, CA] - Sunset Malibu, a luxurious treatment clinic on the California coast, has long been a transformational force in the field of drug rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in helping clients win the fight against addiction on their own terms and under their own power.

Substance abuse never afflicts any two victims in quite the same way. On the contrary, every addict faces unique challenges on the road to sobriety. The best drug [rehab center](#), then, is that which most effectively meets the individual needs of its individual clients. In the end, any inferior standard of care is simply unacceptable.

Those considerations, in turn, comprise the core of Sunset Malibu's personalized treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing drug rehabilitation to those who seek it. At Sunset Malibu, the individual client always comes first.

"Drug rehabilitation can't be an assembly-line process," said Sunset Malibu Program Director Dr. Georgina Smith. "Our exclusive rehab programs are designed on a case-

by-case basis, after thorough evaluations of each and every new resident. That, we believe, is why our clients enjoy such a remarkable rate of success."

Sunset's competitors, meanwhile, would be hard-pressed to heap that sort of praise on their own treatment efforts.

It's easy for a drug rehabilitation facility to advertise "personalized treatment." It's harder for that facility to live up to its own standards. The unfortunate truth is that many of the most high-priced drug rehabilitation clinics in California treat every client the same way. More often than not, these institutions fail to deliver on the promises they make to their patients.

Dr. Smith insists that those shortcomings are inexcusable.

"Drug rehabilitation is a matter of life and death," Dr. Smith said. "Our clients trust us to save them from addiction, and we're tremendously determined to justify their faith. We believe that it's both our professional and personal obligation to do everything in our power to ensure the success of the healing process."

It's no secret that drug addiction ruins lives. It might not be so obvious, though, that drug rehabilitation really can save them. Sunset Malibu's successful graduates have learned firsthand just how valuable the right treatment program can be. Under the circumstances, it's hard to imagine that any lesson could ever be more precious than that one.
