JustMensRings.com is proud to announce that they will now be offering the Benchmark collections of 10K and 14K gold, palladium and platinum rings. Customers of JustMensRings.com will now be able to purchase these high quality men's rings at the most competitive pricing available online.

Benchmark Rings has a forty year history of being the "wedding ring specialists". Everything they do is fueled by their desire to create the highest quality rings, engineered for comfort and lasting beauty. As the first company to introduce "comfort fit" rings to U.S. consumers, Benchmark is also known for their commitment to innovation and customer care. Benchmark is one of the few manufacturers to have mastered the technology of precision setting, a process that allows as much of a diamond's surface to be displayed as possible, without sacrificing the security of the stone. In essence, their rings are "engineered for perfection", a fact that Benchmark takes pride in maintaining.

Benchmark offers something that many other companies do not – a Lifetime Guarantee. This means that once a customer registers their ring with Benchmark, they will repair or replace it at no charge, as long as the damage is sustained during normal wear. In addition, if a customer's ring size changes, Benchmark will resize the ring free of charge.

Like Benchmark, JustMensRings.com has built their business on offering a large selection of only the finest men's rings, and they stand behind everything they sell.

JustMensRings.com is known for their innovative collections of classy and creative rings, from the simplest wedding band to edgiest fashion ring. JMR focuses on prime quality, affordable men's rings, available in all sizes - even those hard-to-find large sizes. Because they only sell men's rings, JustMensRings.com spends a lot of time getting to know their customers and what they want. Through a combination of customer care and personalized service, JMR has been able to fine-tune their selection of rings to be sure they are offering only the highest quality products to meet the needs of their customers.

As an Internet-only retailer, JMR is committed to providing a comfortable, simple and secure online shopping experience, and their customers have come to expect high standards of service, selection and quality when they shop at JustMensRings.com. For these reasons, the addition of the Benchmark men's ring collections is a very important enhancement to the company's niche market position.
