[Malibu, CA] - Cliffside Malibu, an upscale recovery clinic on the Malibu coast, has long been a leading light in the California treatment community. Now, the center is pleased to announce its renewed commitment to the fight against anorexia and bulimia.

Eating disorders ruin lives. To succumb to anorexia or bulimia is to be stripped of one's dignity, and one's capacity for hope. The good news is that professional [Los Angeles eating disorder](#) treatment really can solve the problem-but only if it's administered by competent and compassionate experts. In the end, there's simply no substitute for caregiver expertise in the healing process.

Those principles, in turn, form the foundation of Cliffside Malibu's treatment philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The center has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering the best eating disorder therapy on the planet to those individuals who need it. At Cliffside Malibu, nothing less than excellence will ever be acceptable.

"Eating disorder treatment is an exceptionally delicate process," said Cliffside

Malibu's Clinical Team. "To be successful, it has to be administered exactly the right way, by people who understand exactly what they're doing. We believe that our commitment to quality care is reflected by our long history of clinical success. "

Unfortunately, that record of success makes Cliffside almost unique among its competitors.

There are plenty of eating disorder treatment facilities in Los Angeles. All of them make big promises to their clients. But only a handful deliver. The truth is that many of the most "exclusive" clinics in California are staffed by inexperienced or unqualified therapists. As should go without saying, those institutions can't be counted on to help patients achieve lasting wellness.

Cliffside administrators assert that those sorts of failure are unacceptable.

"Our clients trust us with their lives," said Cliffside's Program Director. "We're both humbled and motivated by the responsibility, and we stop at nothing to ensure a successful outcome to the healing process. Under the circumstances, we believe that anything less would constitute a breach of our personal and professional obligations."

No eating disorder victim needs to be told about the perils of anorexia and bulimia. What might not be so obvious, though, is that professional eating disorder treatment really does change lives. Cliffside Malibu has a long history of helping clients heal from the inside-out. For those clients and the people who care about them, no goal could ever be more important than that one.
