

# Turning to Tummy Tuck Procedures to Achieve Desired Look

Released on: December 11, 2009, 12:07 pm

Author: [The Hospital Group](#)

Industry: [Healthcare](#)

The Hospital Group has reported that Male tummy tucks are becoming increasingly popular in the last 5 years with the [cosmetic surgery](#) providers recording a 60% increase in the procedure.

People seek an abdominoplasty, or otherwise known as a [tummy tuck](#) for various reasons. Some want to look as young and attractive as they feel, other people wish to correct a perceived imperfection. Whatever the reason, in the hands of a skilled plastic surgeon, most of these imperfections could be improved.

During this procedure, incisions are made which are positioned to allow the removal of surplus skin and fat deposits to achieve a tighter, flatter stomach area.

A spokesperson for The Hospital Group, said: "Men often opt to have a tummy tuck if they have had substantial weight-loss and are left with sagging skin around the abdomen. We have seen an increase in men having obesity surgery which could have had a knock-on effect."

The Hospital Group is one of the UK's leading providers of cosmetic surgery, number one in obesity surgery and [liposuction](#) experts. So whatever your requirements, you can rest assured in the safe hands of the professionalism and experience that THG has to offer.

Since The Hospital Group was established in 1992, it has risen to become the UK's biggest weight loss surgery providers, performing more [gastric band](#) procedures last year than the NHS. The Hospital Group is committed to providing the very highest standards and all procedures are performed by an expert medical team in state-of-the-art facilities that are second to none.

For further information of The Hospital Group's range of cosmetic surgery procedures, surgery-seekers should visit the website at [Thehospitalgroup.org](http://Thehospitalgroup.org) or call our patient care coordinators on 0845 762 6727.
