

What To Do When Drug Addiction Affects Your Family

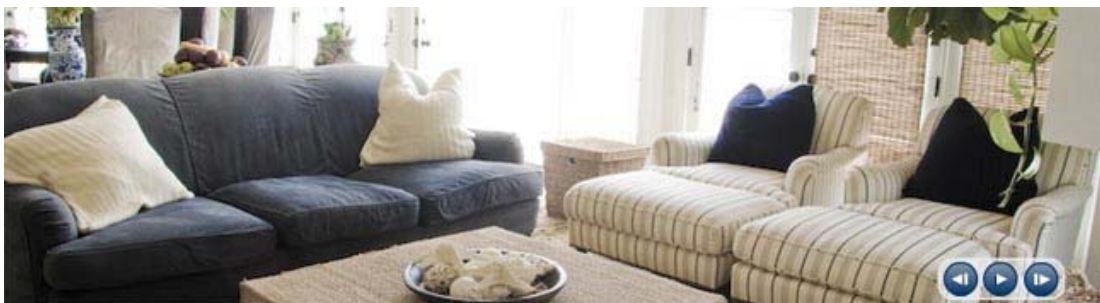

Released on: December 10, 2009, 1:05 pm

Author: [Cliffside Malibu](#)

Industry: [Healthcare](#)

[Malibu, CA] - Cliffside Malibu, a prestigious rehabilitation facility on the Malibu coast, has long been a leading light in the California drug addiction treatment community. Now, the center is pleased to announce its renewed commitment to helping clients recover their personal dignity during the healing process.

[Drug addiction](#) is a psychologically crippling disease. Drug addiction treatment, then, must help victims regain their willpower and self-esteem. Simply stated, the best drug addiction treatment facilities are those which help clients learn to feel good about themselves again. In the end, there's no better way to ensure the long-term success of rehab and recovery.

Those principles, in turn, are the bedrock of Cliffside Malibu's treatment philosophy.

With its expert caregivers and posh amenities, Cliffside Malibu is a world-class institution. The center has always catered to an elite clientele. Now Cliffside is expanding its mission, with the goal of delivering the most ennobling care on the planet to those individuals who need it. At Cliffside Malibu, nothing less than excellence will ever be acceptable.

"Our clients invariably come to us with a range of emotional issues," said Cliffside Malibu Program Director. "It's our job to help them resolve those issues, with everything from depression treatment to life-skills education. We believe that our record of success proves the effectiveness of our approach."

And that record, in no uncertain terms, is precisely what distinguishes Cliffside from

its

competitors.

Any drug addiction treatment center can talk about the importance of psychological recovery. But only the best of the best can put their principles into practice. The truth is that many of the most high-priced institutions in California fail to help clients heal from the inside-out. It should come as no surprise that those institutions routinely fall short of the promises they make to their patients.

For recovery patients and their families, say Cliffside administrators, that sort of failure is unacceptable

"You don't get any second chances in the rehabilitation process," said Cliffside's Clinical Director. "You either do it right the first time or your client pays an unspeakable price. At Cliffside Malibu, we do everything in our power to make good on the trust our residents invest in us."

No victim of drug addiction needs a lecture about the perils of the disease. What might not be so obvious, though, is that those perils don't have to be fatal. Cliffside Malibu's drug addiction treatment programs really do change the lives of those individuals who enroll in them. The only question that remains is whether California addiction victims will be wise enough to seek the help they need to get better for good.

Cliffside Malibu is a luxury drug and alcohol treatment center complete with [intervention](#) services located in Malibu, California.
