[Malibu, CA] - Sunset Malibu, a private treatment clinic on the California coast, has long been a transformational force in the field of rehabilitation and recovery. Now, Sunset is announcing its redoubled efforts in helping clients achieve meaningful holistic wellness.

Drug addiction is both a physical and psychological disease. Drug recovery, in turn, must entail both physical and psychological healing. The best treatment centers are those which meet all the needs of their clients, with everything from [inpatient drug rehab](#) to emotional counseling programs. In the end, there's no better way to build a foundation for lasting sobriety.

Those considerations, in turn, are at the bedrock of Sunset Malibu's treatment philosophy.

With its world-class caregivers and elegant accommodations, Sunset Malibu is an unparalleled recovery destination. The center has always catered to upscale clients from every corner of the globe. Now Sunset is renewing its commitment to its core values, with the goal of delivering life-changing care to individuals who seek it. At Sunset Malibu, the client always comes first.

"There are no partial victories in the fight against addiction," said Sunset

Malibu's Program Director. "Our exclusive treatment programs are designed to support our clients through every phase and dimension of the healing process, beginning with inpatient drug rehab and continuing through emotional therapy and life-skills education. We believe that our robust success rate proves the effectiveness of our methods."

Sunset's competitors, meanwhile, can hardly make the same claims about their own treatment strategies.

Many rehab centers acknowledge the importance of holistic recovery. But few institutions actually put their own principles into practice. In fact, many of the most high-priced rehabs in California provide one-dimensional care to their clients. As should go without saying, these clinics routinely fail to deliver on the promises they make in their advertising brochures.

Sunset Malibu's Clinical Team, for their part, argues that those shortcomings are inexcusable.

"Rehab is an enormously delicate process," Sunset's Clinical Director said. "To be successful, it has to be administered exactly the right way, with careful attention to the individual needs of individual clients. Any clinic which can't meet those standards doesn't deserve to be in business."

It's no secret that drug abuse is a devastating disease. The good news is that inpatient drug rehab can help to solve the problem. Sunset Malibu's holistic treatment programs have a proven record of long-term success. Now more than ever before, the center's graduates have reason to believe in a healthier and more hopeful future.
