Sensibill adds New Certification to Better Serve Clients FORT WORTH - Sensibill is expanding each year and adding employees who are at the top of the medical billing field. Recently, Kim Brents, received her certified professional coder status. She has worked at Sensibill since May of 2001. Brents previous experience in the pathology medical billing field goes back to 1978. She also played a key role with a Pathologist associated with the Osteopathic Medical Center of Texas.

"I am excited to add my knowledge to the Sensibill team with this certification, says Kim Brents.

President Barbara Graham adds, "My company grows thanks to the help of my loyal employees who are constantly improving themselves. I only seek the best."

Sensibill prides itself on technologically advanced revenue cycle management solutions and computerized coding.

President Graham says, "I know that I am providing my clients with the best possible coding expertise with Brents' new certification." -- -- -- --

About Sensibill:

Sensibill is a national <u>medical billings</u> and management company that specializes in providing technologically advanced services in automated coding, electronic claims filling, document imaging and storage, financial reporting, technical support, etc. We use the latest in technology to achieve best practice results for our clients, including our HL7 Hospital Connectivity Engine that allows for virtually error-free data transfers into our system. Sensibill can help you optimize your revenue cycle management process by utilizing state-of-the-art Information Technology while providing services of the highest quality in a cost-effective manner. You have a specialty. We do too. Select the Sensibill solution.
