Leading online retailer of men's jewelry offers \$50 off purchase of select tungsten rings

(Modesto, Calif.) June 2010 – Titanium-Jewelry.com, a premier online retailer of mens jewelry, [tungsten rings](#) and men's wedding bands announces the addition of a new collection of [men's rings](#) by jewelry designer, Heavy Stone Rings (HSR). The new [mens rings](#) combine tungsten with precious metal inlays of 18K yellow gold, 18K rose gold and palladium. This month, Titanium-Jewelry.com is offering a \$50 discount with any purchase of a precious metal inlaid Heavy Stone Ring.

"We are very excited to bring our customers these bold new styles of wedding bands," said Ron Yates, founder, Titanium-Jewelry.com. "The men's rings with palladium rope inlay and rose gold inlay are my favorites from Heavy Stone Rings. So far they've been a hit with men looking for a little extra in their wedding band."

Those who want the warm color of gold are selecting higher purity 18K gold (.750 pure) and 18K rose gold, known also as "red gold. Unlike most jewelers that use 14K gold, which is only .58 pure, HSR uses 18K gold, giving the ring a much richer look and better contrast between the cold steely color of the tungsten ring. The Heavy Stone Rings are handcrafted in the U.S. and are backed by a lifetime warranty.

To be eligible to receive this discount, customers must choose from one of the HSR precious metal inlay rings available at <http://www.titanium-jewelry.com/heavy-stone-rings.html> and enter coupon code HSR50 at checkout. This offer good through June 30, 2010.

In addition to rings by Heavy Stone Rings, Titanium-Jewelry.com offers sophisticated designs from ArtCarved, Benchmark, COGE, Diana Classic, Edward Mirell, Formotion Watches, J.R. Yates, Triton and the Belloria Black Diamond collection for her.
